

# IMPORTANT NOTICE

Thank you for your trolling motor purchase and trust in Minn Kota. We are honored to fish with you.

Like many products, our motors have been impacted by global supply chain shortages. To get you on the water and on the fish as soon as possible, this motor was shipped without a Bluetooth™ heading sensor that enables the Jog feature.

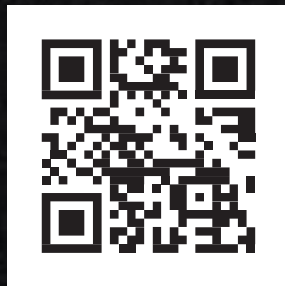

We appreciate your patience and will ship your heading sensor as soon as it becomes available.

Please see the reverse side of this card for further redemption details.

# HOW TO REDEEM

To receive your Bluetooth™ heading sensor:  
Scan this QR code or visit [www.minnkotapromotions.com](http://www.minnkotapromotions.com)

After registering, Minn Kota will provide you regular updates on the status of receiving your heading sensor.
