

SMITH RAIL SIZE FINDER

Instructions:

- 1- Open this PDF in ADOBE Reader. Its a free program if you don't have it.
- 2- Turn on your printer and check for paper.
- 3- Click on print.
- 4- On the next screen, select Scale None, or Actual Size.
- 5- Click OK, print your size finder.
- 6- Verify it printed correctly by measuring that the scale bar is exactly 6" wide.
If its not exactly 6" wide the finder will NOT give correct readings !!
- 7- Cut out your verified size finder.
- 8- With your thumb on the arrow, wrap the size finder around your rail.
- 9- The arrow line will align very closely with one **Outside Diameter** size line.
- 10- Order Smith rod holder models with that size clamp.

Happy Fishing !
